- Brief Report:
- Shree Nilesh Shah is well-known structural engineer and partner of Shah Associates, South Gujarat region. He had delivered an expert lecture on “Architectural Design and Structural form for Earthquake Resistant Design” to 8th semester and 6th sem Civil students. Total 89 students had attended the expert talk. He explained the students about the simple rules which are important to implement in earthquake design of structure for practical purpose. He mentors the students to develop the basic understanding of design by following tricky and complex IS code criteria. He also briefed students regarding various types of architectural and structural form for design and it will be taken care by whom- an Architect or Structural Engineer. He explained every concept very nicely with graphical support. The session is interactive for students as after certain concept, students and expert has discussed and revised the explained points. Students also enjoyed and gained knowledge due to this session. At the end students had shared their positive reviewed about the session.
